Answers to let's begin.

1) Enjoy every moment of life as i want. without hurting others

2) Solving problems is what makes is happy & excites me professionally.

Teachers.

1) Hussain sir from high school. The way he taught is really good & he also taught many values, along with the subject. Never cared about marks.

2) Ashok sir. The way of his teaching random & not good. often asks us to to code a big problem in a very short span which forced us to copy from internet.

Notes in the class

→ Thought is a cycle. It involves generating logic & a series of steps.

→ Almost all the qualities mentioned in the slide is found in my high school sir.

→ Later we ~~thought~~ took sieve jobs & elon musk
& Compared their thought process.

Later we learnt about demensions of a learner
as table form.

Intellectual encitement	Interpersonal Rapport with friends & teachers		
	low	medium	High
low	Inadequate learner.	marginal learner.	warm fuzzy learner.
medium	Enough Competence but not Colleborative	masterful one way Communicator.	masterful Collaborator.
high.	Highly Competant but not Collaborative	Intellectual authority.	Masterful learner

learning Chain

Collection of learning. → Intelligence. defines → Attitudes
——→ Aptitude —— Altogether.
——→ Knowledge.
